

YW-Buddies

The YWCA YW-Buddies Program is an effective mentoring program designed to match at-risk children with a positive role model. It allows the volunteer to provide guidance through a one-to-one relationship and assist in the positive growth of the child. The volunteer will meet with their “little” one hour a week for the entire school year.

Studies have shown that a positive relationship during these critical formative stages in a child’s development can make a significant difference in the child’s ability to reach his or her own potential.

Together, we can make a difference in the lives of these children. Thank you for your participation in the YW-Buddies Program.

If you are interested in becoming a YW-Buddy, please contact Marle Chapman at the YWCA 318.442.3397.

Children are one third of our population and all of our future.
